

ONLINE SAFETY

AND SECURITY

Whether at work, at home or on the move, it is almost impossible to live without accessing the Internet. This inevitably leads to risks.

This course covers what those risks are, including phishing, malware and oversharing. It goes on to explain how to mitigate those risks by taking a few simple steps and precautions.

COURSE COVERS

Phishing, spear phishing and how to spot a phishing scam.

Malware, including viruses, ransomware and spyware, and how to reduce exposure to them.

Examples of safer passwords.

Risks of portable storage and social media.

SUITABLE FOR

This course is for all employees who use electronic devices that can be connected to the internet in some form.
