

SLIPS

TRIPS & FALLS

Slips, Trips and Falls are the most common hazards in workplaces, contributing to over 10,000 serious injuries each year. This training course will help you understand where and when these hazards occur, how to prevent them from causing harm, and how to carry out your work activities without becoming another statistic.

COURSE COVERS

Who is responsible for managing the risks from Slips, Trips and Falls.

The employers and employees' responsibilities.

How to prevent these accidents from happening and the legislation that covers your health and safety.

SUITABLE FOR

This Slips, Trips and Falls course is designed for workers at all levels and in all industries. Slips, trips and falls can happen in anywhere, including warehouses, catering premises, offices and residential homes. Understanding how to prevent these types of accidents is important to manage the risks to health and safety.
